SUMMARY

Frontend Software Engineer with over 4 years of experience delivering responsive, high-performance applications across web and mobile platforms. Skilled in TypeScript, React, and Next.js, with hands-on expertise in real-time systems such as crypto exchanges powered by WebSocket technology. Strong focus on user-centric design, accessibility, and mobile-first principles, ensuring intuitive interfaces that scale across devices. Adept at bridging technical depth with product vision, combining frontend engineering discipline with an eye for usability and seamless interaction. Experienced in modern workflows including monorepos, containerized deployments, and environment management, with a track record of building maintainable systems in fast-paced environments.

EXPERIENCE

Software Engineer (Frontend)

MS Pay ↗

08/2025 - 10/2025

- Lead OTC Portal Frontend Architecture
- Implement multiple currencies and Stablecoins transaction UI (Swap)

Frontend Engineer

Bitwyre ↗

02/2024 - 10/2025

- Spearheaded frontend development for a high-performance cryptocurrency exchange, building robust and responsive interfaces with Next.js to handle real-time trading demands.
- Engineered real-time UI features using WebSocket technology, enabling seamless delivery of persistent market data across complex trading components.
- Led frontend development for an OTC trading platform delivered to an external partner, ensuring secure, scalable, and user-friendly functionality tailored to institutional needs.
- Collaborated with cross-disciplinary teams including UI/UX design, engineering management, and the Core Trading Engine group to solve technical challenges in a fast-moving crypto environment.
- Drove performance optimizations, reducing latency and improving reliability, contributing to a smoother and more efficient trading experience.
- Co-developed features for Bitwyre's card product using React Native, extending platform functionality to mobile and strengthening user engagement.
- Actively influenced product direction by contributing ideas in cross-team discussions, aligning technical execution with strategic business goals.

Frontend Developer

Skyshi Digital ↗

12/2021 - 02/2024

- Led the redesign and development of responsive websites for clients, including a local non-profit, improving usability and accessibility across devices.
- Optimized site performance by reducing load times, debugging critical issues, and streamlining frontend code, resulting in smoother interactions and higher retention.
- Built custom landing pages with Next.js, integrating analytics and tracking pipelines to support data-driven product decisions.
- Applied A/B testing and iterative design to refine key flows, improving usability through evidence-based adjustments.
- Championed a mobile-first design strategy, ensuring consistent user experience across multiple screen sizes.
- Developed and maintained a design system and component library, establishing scalable patterns for branding, UI consistency, and engineering efficiency.
- Partnered with product managers, designers, and backend engineers to deliver end-to-end solutions, balancing technical

feasibility with user needs.

EDUCATION

Informatic Management
AMIK Serang - Associate's Degree

12/2021 - 12/2024

CERTIFICATES

English Certificate (C1 Advanced) ↗ EF SET	11/2024 - Present
JavaScript Intermediate ↗ Hackerrank	01/2024 - Present
Frontend Developer (React) ↗ Hackerrank	01/2024 - Present

SKILLS

Swift	Basic	React Router	Advanced
Kotlin	Basic	React Native	Advanced
Java	Basic	React.js	Expert
Angular	Intermediate	Zustand	Expert
Node.js	Advanced	React Query	Expert
Supabase	Advanced	Next.js	Expert
Svelte-kit	Advanced	User Centric Design	
Svelte.js	Advanced	Agile Methodologies	
Nuxt.js	Advanced	Trading Platform UI	
Vue.js	Advanced	Remote Working	
WebSocket	Expert	Web Accessibility
