SUMMARY

Frontend Engineer with 4 years of experience delivering responsive, real-time applications using React, Next.js, and TypeScript. Combines strong UI engineering skills with a product-focused mindset to create fast, reliable user experiences.

EXPERIENCE

Frontend Engineer - Seasonal 07/2025 - 09/2025
MS Pay ↗

- Architect the entire frontend codebase with Astro.js

Frontend Engineer - Full Time 02/2024 - 10/2025
Bitwyre ↗

- Developed high-performance frontend architecture for a cryptocurrency exchange using Next.js, supporting real-time trading and scalable data flow.
- Implemented real-time market data delivery with WebSocket integration, ensuring persistent and responsive updates across trading components.
- Built and maintained the frontend of an OTC trading platform for institutional clients, focusing on security, scalability, and usability.
- Collaborated with UI/UX, engineering, and trading engine teams to resolve cross-system challenges in a fast-paced crypto environment.
- Optimized application performance by reducing latency and improving rendering efficiency, resulting in a smoother trading interface.
- Co-developed mobile features for Bitwyre's card product using React Native, extending platform accessibility and engagement on mobile.
- Contributed to product planning through technical feedback and design input, ensuring alignment between business priorities and engineering execution.

Frontend Developer - Full Time 12/2021 - 02/2024
Skyshi Digital ↗

- Designed and developed responsive websites for multiple clients, including a local non-profit, enhancing usability and accessibility across devices.
- Improved site performance by minimizing load times, resolving critical bugs, and refactoring frontend code for smoother user interactions.
- Built custom landing pages using Next.js and integrated analytics pipelines to enable data-informed design and marketing decisions.
- Implemented A/B testing and iterative UX refinements to optimize user flows based on performance metrics and behavioral data.
- Applied a mobile-first development approach to ensure consistent performance and usability across screen sizes.
- Created and maintained a scalable design system and component library to unify branding and improve development efficiency.
- Collaborated closely with product managers, designers, and backend teams to deliver cohesive, production-ready web experiences.

EDUCATION

Informatics Management

AMIK Serang - Associate's Degree

12/2021 - 12/2024

CERTIFICATES

English Certificate (C1 Advanced) ↗

EF SET

11/2024 - Present

JavaScript Intermediate ↗

Hackerrank

01/2024 - Present

Frontend Developer (React) ↗

Hackerrank

01/2024 - Present
